# Outset Seal

Adjustable Lineset Outlet

# HVAC Piping Wall Penetrations

Sealing the wall penetration created by HVAC refrigeration lines helps **prevent air leakage, moisture leading to mold growth, and rodent and insect intrusion.**

# Why Outset Seal?

---

 **Outset<sup>TM</sup>**  
**SEAL**

## **Protection**

**Innovative design** protects against weather elements, air leakage, rodent intrusion, and comes with a **3-year warranty**.

## **Ease of Use**

Outset Seal's **unique hinge style closure** makes installation quick and easy. 1 SKU to stock!

## **Versatile**

**Adjustable.** Works with **mini-split and central HVAC systems**. Suitable for **new and existing installs**.

**UV and weather  
resistant, durable**

**Blocks rodent  
intrusion**

**Innovative  
flexible sleeve  
design reduces  
piping vibration  
which can cause  
damage**

**Prevents  
moisture and  
mold growth**

**Prevents  
air leakage**

**LIMITED 3YR  
WARRANTY**

Combining Outset Seal and K-Flex Titan Insulation meets, or helps meet, code requirements.

## Outset Seal

## K-Flex Titan Insulation

Constructed with ASTM standard approved materials. **No testing criteria exists but helps meet the purpose of the codes.**

**Meets outdoor exposure code requirements** of the 2012/2015 IECC  
Residential & Commercial codes

RectorSeal recommends consulting with a professional to **ensure installation meets local codes!**

Outset Seal's **unique hinge style closure** makes installation quick and easy for new and existing installations.

**No need to cut existing linesets!**

**1 SKU, suitable for new installations and retrofit projects!**

Works with both **mini-split and central systems**

Adjustable sleeve fits **up to 7/8" OD line set with 3/4" insulation**

**Installs on multiple surfaces**

Brick | Concrete | Masonry | Siding | Metal Paneling | Stone | Stucco | Drywall

# Outset Seal

## Features

Outset Seal seals penetrations for both central HVAC and mini-split systems. It resists mold growth, deters rodents and insects and is UV resistant. Outset Seal's hinged design allows for easy installation and removal from the wall opening.

## Application

Adjustable wall seal for central HVAC and mini split systems. 12" x 12" panel size fits up to 7/8" OD line set with 3/4" Insulation. Suitable for new installation and retrofit projects.

# K-Flex Insulation Solutions

## K-Flex Titan

**Closed-cell, flexible, elastomeric foam insulation with a flexible co-extruded UV resistant jacketing**

- 1 step install – no field applied protective coating or jacketing required
- Meets outdoor exposure requirements of the 2012/2015 IECC Residential & Commercial codes

Code	Description	Qty
83032	120 ft. Roll, 5/8" x 1/2"	1
83033	75 ft. Roll, 5/8" x 3/4"	1
83034	75 ft. Roll, 3/4" x 1/2"	1
83035	60 ft. Roll, 3/4" x 3/4"	1
83036	60 ft. Roll, 7/8" x 1/2"	1
83037	50 ft. Roll, 7/8" x 3/4"	1

## K-Flex Insulation Tapes

### Cork Tape – Self-adhesive insulation tape

- Flexible
- Fits all diameter pipes, fittings and connections
- Rubber-based mastic material

### Foam Tape – Thermal performance for HVAC/R Applications

- Flexible
- Long-lasting bond
- Environmentally friendly
- Protects against mold, fungal and bacterial growth

Code	Description	Qty
83040	Cork Tape 2" x 1/8" x 30'	12
83041	Foam Tape 2" x 1/8" x 30'	12

# Silicone Sealant

*Seals between Outset Seal and wall penetration*

## Features

- -50° to +450°F service temp
- Insulates, bonds, and seals between Outset Seal and wall penetration
- Vibration resistant
- Remains Flexible

## Application

General Purpose Silicone Sealant can be used to seal around bathtubs, shower stalls, bathroom vanities, kitchen counters, sinks, windows and doors. It can be used for replacing ceramic tiles and making new gaskets for dishwasher doors, sealing windshields in cars, vans and boats. Use it to repair or install body/side molding, and any application that requires a permanently flexible waterproof seal that will withstand moisture, heat and vibration.
